CONTROL PANEL HEATER

TOUCH-SAFE PTC HEATER

CSF 060 | 50 W to 150 W

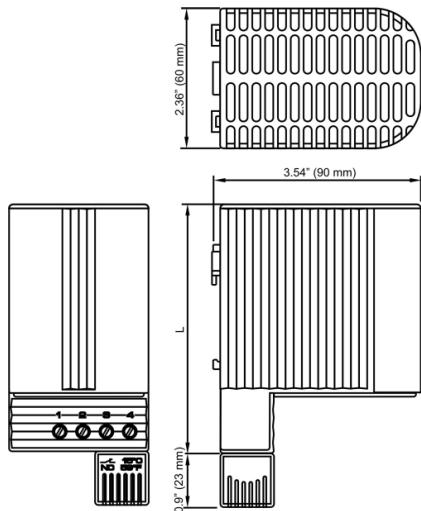

- > Low surface temperature
- > Integrated thermostat
- > Compact size

- > Wide voltage range
- > Double insulated protection
- > DIN rail mountable

The CSF 060 is a touch-safe heater for use in enclosures. The design of the heater utilizes natural convection which results in a circulating current of warm air. The surface temperatures on the accessible side surfaces of the housing are minimized as a result of the heater design. This model with plug-in thermostat does not require additional wiring. The CSF 060 is also available in a version without thermostat (CS 060). These heaters are suitable for permanent operation.
